Today sustainability is about more than just compliance; it's about efficiency, growth, and business resilience.

- + Lower your carbon emissions
- + Create immediate and long-term savings
- + Reduce downtime and extend the life of your equipment
- + Provide a safe and comfortable customer experience
- + Lead in your industry and protect your brand

# Turntide for Buildings™

Turntide for Buildings optimizes energy usage, sending savings right to your bottom line and helping you reach your net-zero emissions goals.

## Conserve

Optimize resources and energy efficiency

## Profit

Lower costs to operate and maintain your portfolio

## Lead

Strengthen and protect your brand

### Smart Motor System™

The efficient, ultra-reliable Turntide Smart Motor System, is a drop-in solution that reduces energy usage by an average of 64%. With built-in connectivity and intelligence, it continues to get smarter over time.

### Smart HVAC

Improve your service workflows with Smart HVAC. The Turntide app works with the Smart Motor System to help you remotely manage temperature setpoints and quickly respond to issues with alerts, dashboards, and custom reports.

### Smart Building Operations

Monitoring indoor air quality standards and managing global controls and schedules across multiple sites is easy with Smart Building Operations, an open-platform that works across different vendors and systems.

### Add On Services and integrations

Professional services include: custom dashboards, reports, floorplans, and graphics. Plus, we offer Integrations with 3rd party work order management tools and utility demand response programs.

Reduce Carbon Emissions

Capture Cost Savings

Reduce Disruptive Failures

Streamline Equipment Maintenance

Strengthen and Protect Your Brand

#### TURNTIDE TECHNOLOGY FOR SUSTAINABLE OPERATIONS

Our breakthrough technologies accelerate electrification and sustainable operations for energy-intensive industries.
